

Research Area

Admission To PhD Programme In January Academic Semester 2020

Department of Electrical Engineering (EE)

Control system, power electronics in renewable energy

Power system protection, optimization, microprocessor/microcontroller based control

Department of Electronic and Communication Engineering (ECE)

VLSI Design

Department of Mechanical Engineering (ME)

Manufacturing Area : Rheo-Pressure Die Casting for aluminum alloys

Thermal & Fluids Area: Heat Transfer Cooling and Electronic Cooling system

Department of Civil Engineering (CE)

Environmental Engineering

Water Resource

Department of Chemistry

Organic/Inorganic/Physical/Analytical Chemistry

Department of Physics

Ferrites, nanocomposites or nanostructure materials, semiconductors, electroceramics, energy material
